

Binding self-declaration on the personal status on a possible SARS-CoV-2 infection / COVID-19 disease

In order to contain the spread of SARS-CoV-2 infection / COVID-19 disease, it is necessary that all persons involved in a scientific diving operation make a binding self-declaration on the possible case scenarios of a SARS-CoV-2 infection or COVID-19 disease.

1. I have been in contact with someone who has tested positive for SARS-CoV-2 infection / COVID-19 within the last two weeks.
2. in the last two weeks I had fever | respiratory distress | severe cold symptoms | odour and taste disorders | possibly also neurological abnormalities.
3. I tested positive (PCR or antibody test) for an infection with the SARS-CoV-2 virus

With my signature I confirm that none of the cases mentioned under points 1-3 are applicable and that I will immediately inform my dive mission leader and the institution responsible for the dive operation if any of the above points occur.
